There are no investments in Level 3 as of June 30, 2018.

(3) The Company's policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.

NOTES TO FINANCIAL STATEMENTS

(4) Fair values of bonds are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. Level 2 securities primarily include United States government securities, corporate securities, securities from states, municipalities and political subdivisions, residential mortgage-backed securities and certain other asset-backed securities. For securities not actively traded, the pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. The Company has controls in place to review the pricing services' qualifications and procedures used to determine fair values. In addition, the Company periodically reviews the pricing services' pricing methodologies, data sources and pricing inputs to ensure the fair values obtained are reasonable.

Cash equivalents primarily consist of highly rated money market funds or bonds with original maturities of three months or less. Due to the high ratings and short-term nature of these investments, cash equivalents are primarily designated as Level 1.

There have been no significant changes in the valuation techniques during the current period.
